**FRIEDRICH
EBERT
STIFTUNG**

Friedrich-Ebert-Stiftung (FES) is a German non-profit political foundation based on the values of social democracy – freedom, justice and solidarity. We offer to be a strategic ally to progressive (anti-neoliberal, emancipatory, feminist, anti-racist) actors within trade unions, social movements and political parties. With our network of more than 100 country offices worldwide, we organize for progressive internationalism: political dialogue and alliances.
